Dear Pete: You are marvelous because you do make things happen! That's what I am talking about. People like you make me want to be more credible about my credit and all. Thanks for believing in me.

Every savings counts. I appreciate the decrease by .05%.

In the very near future, I want to be a banker too. No kidding. When I can say the bank is ME, just like you, I definitely have your number. Your staff is great! When you can work at the tempo of the client, you are in business! At every opportunity, I will let my friends know.

Thank you. You and you team run a tight ship. You have been great!
