

We, Louis and Carol Bonder, would like to offer Pete Fajkowski this letter of endorsement for his professional handling of our mortgage loans. He brokered two of our deals so far, and really helped us out with our debt consolidation. We have been thoroughly impressed with Pete's work and his attitude in general. There were several glitches in our transaction, none of which Pete caused, all of which Pete handled very well.

We felt very secure with Pete's knowledge of mortgages, and we were presented with a wide array of possibilities, each of which focused on a different aspect of financial prioritization. We also felt very secure when Pete handled our business negotiations during the course of our loan, as he genuinely had our interests in mind.

We own a Rolodex with our current business contacts that we regularly update. Pete still has three cards for anyone that asks me about mortgage brokers, and I know where to get more when I run out. If any of our friends or family need a good broker, we would feel more than comfortable recommending Pete's services to them. Pete also made the time to establish a genuine friendship with us, while managing to do a superb job with our loan, marking the beginning of a very sound business relationship.

Sincerely,  

Louis and Carol Bonder
