

International **IOR** Rectifier

233 Kansas Street
El Segundo, California 90245

May 15, 2000

To Whom It May Concern:

I became acquainted with Pete Fajkowski more than four years ago, first as an employee and colleague at International Rectifier and then as a friend. He is truly one of the most ambitious, conscientious, and intelligent men I've had the pleasure of knowing.

During his tenure here at International Rectifier, Pete was employed as the head of the Technical Illustration department, managing the development of work instructions and policies for a diverse audience. He applied impressive focus and drive to his projects, skillfully negotiating between engineers, managers, trainers, and associates to balance their concerns.

Please feel free to call me at 310 374-0176, should you have any questions. His intelligence and drive are well suited to a successful and growing organization.

Sincerely,

Carl J. Maravilla
